

# 3rd International Hybrid Power Systems Workshop

 Tenerife/Spain, 8 - 9 May 2018

## CALL FOR PAPERS – Be a Speaker!

Energynautics in partnership with the Utility Variable-Generation Integration Group (UVIG) is pleased to announce the **3rd International Hybrid Power Systems Workshop** to be held in Tenerife/Spain, 8 - 9 May 2018.

This event will focus on the **deployment of wind, solar, battery and diesel technologies on isolated and islanded power systems and mini-/micro-grids**, discuss what has worked (and what has not), and provide insight into needed areas of improvement.

The workshop is a unique forum for:

- system planners and designers
- operators of small systems
- project developers and consultants
- universities and research institutes
- regulators and NGOs
- technology vendors of distributed variable generation & storage technology

... to gain exposure to the latest thinking on the design and operation of hybrid power systems. It will look at applications in a variety of locations and operating environments, with a focus on system design, operating experience, business models, economics, and implementation issues.

## Workshop Topics

- Power Systems Design Options
- Hybrid System Technologies
- Project Experience
- Storage Design and Sizing
- System Modelling and Simulation
- Remote Mining Application
- Intelligent Control and Grid Stabilization
- Resource Assessment and Forecasting
- Managing Variability and Uncertainty
- Mini-/Micro-Grid System Design
- Economic Development

### Organizer

### Co-Sponsor

### Media Partner

## Abstract Submission

To submit a paper, upload an abstract of maximum 3,000 characters (free style) between 15 September 2017 and 15 January 2018 to our Online Submission Platform.

For details visit our website [www.hybridpowersystems.org](http://www.hybridpowersystems.org)

## Contact

If you would like to be a sponsor for the Hybrid Power Systems Workshop please contact:

**Thomas Ackermann, Ph.D.**
